Reelfoot Lake soon to be Reached by Rail and Launch

View on the Lake Fisherman's Paradise.

The Famous Walnut Log Hotel.

One hundred years ago last week occurred the great New Madrid earth quake when the Reelfoot lake was formed. On that day occurred the principal quake but the tremors and seismic disturbances continued for a long time.

In the American Cyclopaedia is the following brief account of the quake:

"In 1811 occurred the famous earth quake of New Madrid, Missouri, in the valley of the Mississippi river. Humboldt remarks that it presents one of the few examples of the incessant quaking of the ground for several successive minutes far from any volcano. Over an extent of country stretching for 300 miles southward from the mouth of the Ohio

river, the ground rose and sank in great undulations, and lakes were formed and were again drained. The surface burst open in fissures which generally trended northeast and southwest and were sometimes more than half a mile long; from these fissures mud and water were thrown as high as the tops of trees. During the continuation of the convulsions the inhabitants distinguished two classes of movements, the vertical and horizontal, the latter were regarded as far more devastating than the former. The disturbances continued over what has since been called the sunken country, until March 26, 1812. When they ceased coincidentally with the great earthquake of Caracas."

The citizens of Moscow have pledged themselves to pay the salary of Henry Clay as a special deputy sheriff for Moscow and he has been re-appointed by Sheriff Stayden.

Rev. Charles A. Haskell, one of the best known citizens and ministers of West Kentucky, died at Reelerton, and was buried at Spence's Chapel, east of Mayfield. He was 73 years old and had been superannuated from active service in the Methodist conference, and for the past few years had been living in Reelerton with relatives and friends of his youth—Arlington Courier.

Wednesday afternoon about 1:00 p.m., Nolan Wilkins was shot through the bowels with a pistol or rifle by an unknown man, from the effects of which he died shortly afterwards. The shooting took place on the state road between Swann and Virgil Boyd's shop. The wounded man, who was in a buggy, drove on to Boyd's home where he breathed his last. He said he had been shot "by a low heavy set man with curly hair"—Murray Gazette.

W. A. Dodds has a force of men at work razing his old office building, preparatory to erecting a new brick structure on the old site. His office has been moved temporarily into Gen. Tyler's office on the opposite corner. We are glad to see the old frame torn away; it is one of the remaining shacks in the business section, and a new modern brick building will add materially to the appearance of that end of Clinton street. Let the good work go on.

The Belcher-Wright Co. played here Monday night to a good house in their new comedy, "The Lady and the Liar," which was highly appreciated. The many patrons and friends of this company regret to learn of the death of Clara Belcher, (Clara Wright), who has played the role of leading lady during the company's former engagements here. She died at Carrollton, La., March 23, after an illness of three days. She is survived by her father, Wm. Belcher, her husband, Mr. Wright, and a little son.

Secret Service agents have discovered a dangerous counterfeit \$1 bill. It is a silver certificate series of 1899 check letter "C." This counterfeit is the most dangerous one issued in recent years. The quality known as general appearance, upon which most of us depend, is exceptionally good. Like all counterfeits, however, it has its conspicuous mark of baseness, the portraits of Lincoln and Grant being so poorly executed that the resemblance to the genuine is very slight. Other defects can be found on the face and back of these notes, but the quickest and surest aid to detection is by examination of the portraits.

After a trial in the Federal Court, lasting three days, the jury in the case of J. F. Van Hooser, against A. A. Robinson and eighteen other alleged night riders, returned a verdict of \$2,500 for the plaintiff, each side to pay its own costs. Van Hooser formerly resided in Christian county and alleged that he was forced to sell his property and move to Tennessee because of being intimidated by the night riders. He swore that he was made to kneel and with a noose around his neck compelled to take the night riders' oath. It is understood that the defendants will appeal. Van Hooser sued for \$30,000.

New City Song.

Prof. M. Wittman, the well known musician and composer, received from the press Monday his new song "Hickman." We had the pleasure of hearing the professor render the new city song, and congratulate Hickman on receiving such a compliment from this gentleman. It never does a song justice to merely print the words, and for that reason we do not give them in these columns. It, however, expresses that sentiment that all of us feel who love our town and people. The music is a charming march, with a good lively swing, and will be as once popular abroad as well as at home. The cover or title pages is embellished with ten half tone cuts representing Hickman scenery.

Prof. Wittman is a musician of splendid ability. He has in print about 160 different pieces of music, and was for many years a contributor to Etude, a leading musical journal.

Fulton Leader: Maurice Dillon is able to be out after a ten days illness of fever at his home in West Fulton.

anthem, but few towns are up to snuff with Hickman in having a special piece of music for the municipality. Most other Kentucky towns are must content themselves with "My Old Kentucky Home," but Hickmanites will soon learn to prefer the strains that praise alone the "Bluff City"—the coming metropolis of the South. The bulk of the edition of this song has already been sold.

The suggestion of W. D. Haywood, who was tried for complicity in the murder of Gov. Steinlenberg, of Idaho, that all labor unions go on a strike the day the McNamaras are put on trial, has met with no favor among the great body of laboring people who constitute good citizenship. Haywood only injures himself by such suggestions. Laboring men more than any others are vitally interested in arriving at the guilty or innocence of the accused men and if they are found guilty they should be repudiated and their punishment approved by every one who is not himself a criminal at heart.

P. C. Ward, the genial and popular proprietor of the Walnut Log Hotel at Reelfoot Lake, was a pleasant caller at this office Saturday.

Mr. Ward informs us that he is adding more rooms to the hotel, and getting ready to look after the sportsmen in good shape.

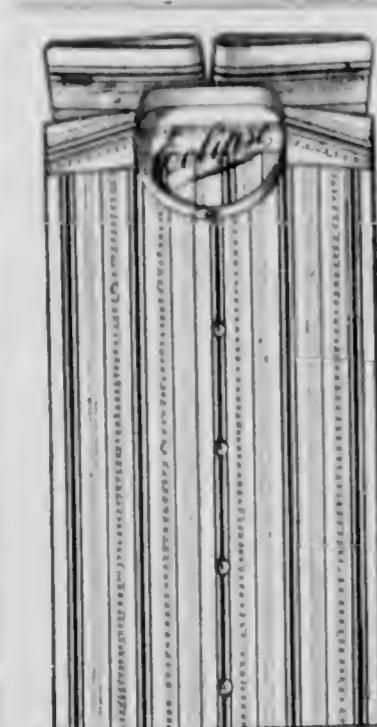

The new railroad which comes up through that country and will be in operation in a few days, misses Walnut Log about five miles, crossing what it known as "Big Slough," an arm of the lake, on T. A. Ledford's farm. Mr. Ward proposes to put in a gasoline launch to run between the railroad and his hotel, thus affording a pleasant little trip along with the outing on the lake, for those who make the trip by rail. The slough has a good depth, still water and the tops of the trees interlacing makes a beautiful shade or canopy all the way to his place. An effort will be made to establish a small town on Mr. Ledford's place, at which mail and express may be received, especially during the summer months. With anything like reasonable departures and arrivals of the C. M. & G. trains at Hickman, our people will have easy access to the lake, and a large portion of the day will not be lost on the road going or coming. It will be a fine proposition for Hickmanites who wish to visit this famous fishing place.

The New Railroad Will be Finished into Hickman Before End of Present Week.

Yesterday morning C. T. Bondurant carried Contractor Mosby, T. A. Ledford, Pres. Latta and a Courier representative down to where the construction crew of the Chicago, Memphis & Gulf R. R. is laying the steel for the new railroad, about two miles below Hickman.

We were surprised to find such a substantial track and road bed; it is almost equal to that of any trunk line. The steel weighs 70 pounds, and the cross ties are heavy cypress, closely laid.

With the work train of 6 or 8 cars we about 100 laborers, a large per cent of whom are Italians, and the work is going on at a good pace. Under favorable circumstances, they lay about one mile of steel a day. At that rate, it will be an easy matter for them to build on into Hickman before Saturday night. At noon today they had reached Steve Stahr's farm, about a half mile from our corporate limits.

Mr. Talley, sub-contractor under Contractors Bondurant & Mosby, finished the work of grading yesterday at noon, the work terminating in Washington street in West Hickman. So if nothing out of the ordinary happens, our citizens will see a new railroad in Hickman this week; not only the track, but locomotives and cars bearing the initials "C. M. & G. R. R." which will be entirely new to most of us. Contrary to general anticipation, this is not a "grape-vine" or "jerk water" road, but a first class, modern railway system. Pres. Latta has spared neither money, labor or material in making the new road a good road.

Mr. Latta informs us that all his train dispatching will be done by telephone, a service which is fast superseding the old Morse telegraph instrument in the offices of many of the big railroad systems. The road now has this service between Dyersburg and Phillip's Mill, between which points they are operating passenger trains.

The new road almost follows an air line from Tiptonville to Hickman, covering a distance of about 22 miles. Between Tiptonville and Hickman, seven new towns or stations have been provided for. Starting from Hickman, they come in the following order:

Owens, Ky.
Leford, Ky.
Bondurant, Ky.
Tyler, Ky.
Phillipps, Tenn.
Wright's, Tenn.
Proctor City, Tenn.

All trains will stop at these places, and side tracks and other conveniences for handling freight will be provided. A more fertile country was never traversed by a railroad, and some of the stations in time will become towns of more or less pretension.

The C. M. & G. will run two trains out of Hickman to Dyersburg daily, with a schedule as follows:

Leave Hickman 5:30 a. m.
Arrive Hickman 12:00 noon.

Leave Hickman 2:00 p. m.
Arrive Hickman at 8:30 p. m.

Hickmanites will certainly be delighted with Mr. Latta's arrangement of schedule for us. For the hundreds of people who annually visit Reelfoot Lake, this time card is a bonanza.

Regular freight and passenger traffic cannot be established until terminal arrangements here have been completed, which, however, should not be many days hence. The freight depot will be located in Bond's Sub-Division in West Hickman, but it has not as yet been determined where the passenger depot will be located.

There has been some negotiation with the N. C. & St. L. for passenger accommodations at their station, but nothing definite has developed in that line.

The citizens of Hickman, as well as Pres. Latta and his associate, Mr. Talley, are delighted with the fact that the road is so near completion. It will be of inestimable value to the town and adjacent territory. The Mengel Box Co. has already contracted for a train load of logs to be delivered to their factories daily, and present indications are that the road will enjoy a splendid patronage in both passenger and freight departments, and in neither case will it be confined solely to their local stations.

The advent of this new road marks an intensely interesting epoch in the history of Hickman—it is the first number on the program of "Greater Hickman," with greater things to follow. Let us co-operate in making the new venture a success. It is a permanent and worthy institution, meaning much to us as a city. The Courier knows that the management will be found right in line with us in making Hickman the metropolis of the South.

Why not declare a half-holiday in Hickman in honor of the event, and go down and help drive the first spike within the city limits? We are not blessed with a new railroad and clever men at the head of it every day; let's show our appreciation.

After a lingering illness of some months, Mrs. Ella Noonan Scott, the beloved wife of Mr. U. H. Scott, passed away early Wednesday morning, at her home in Fulton, aged 45 years.

Mrs. Scott was the daughter of Samuel J. Scott, deceased, and was born in this county near Cayce. She was a faithful member of the Methodist Church and was not only faithful to her church, but just as faithful in believing that it was her duty as a Christian to do the will of her Master at all times, and was always ready to lend a helping hand in time of need. She was an everyday Christian. The beautifying influence of a pure religion were spread over a life and character as spotless and charming as was ever possessed.

She is survived by her husband, one daughter, Lucile, and one sister, Miss Susie Nooman.

The funeral will be held today at 2 o'clock, Rev. McGill and Dr. Holling officiating. Interment at Fairview cemetery.

Won't Hurt Farmer.

It is reported that many of the leading farmers are receiving free copies of socialist Farm Journals containing marked articles calling on our wheat farmers to write Senators immediately demanding that they vote against the bill to put President Taft's reciprocity agreement with Canada into effect.

The New England manufacturers—the tariff barons—who have made enormous fortunes off of the farmers through the operations of the "protective tariff system" are putting up the money to pay for flooding the country with anti-reciprocity literature. That gang don't care a rap whether the farmers get \$2 or \$20 per bushel for their wheat. They prefer the lowest prices. What they actually want and want it had is to leave the tariff stand, not change a word or figure in the Payne-Aldrich bill. They know full well, as does everybody, that the passage of the Canadian reciprocity bill means complete revision of the Payne-Aldrich schedules, whereby the philanthropic pimps, who are afraid the farmers may be hurt, will stand to lose a thousand million dollars a year by reductions.

Now, what effect the free importation of wheat from Canada would have on our market, we don't know. Nobody knows. We live in an age of cheap transportation when prices are governed by the world supply and demand for a commodity. The market at Liverpool and Manchester will do more to fix prices of wheat in this country than the tariff on Canadian wheat.

A couple of years ago, wheat went up to \$1.16 and came to 70¢. Then they told us that the protective tariff did it. Now, wheat is down to 85¢ and corn to 42, without any change in the tariff. Let's quit guessing as to the cause.

He was buried by the Masonic Fraternity in Harlow cemetery, a number of relatives and friends from Tennessee and Western Kentucky being present, among them were sister Mrs. Swan Burns, and husband, of Hickman, a brother, G. W. Brasfield, and two sons, of near Hickman.

A special car was put on coming out of Paducah to accommodate old friends and charges he had served. The crowd was estimated at 1,000.

NATIONAL GRANGE SPEAKS

Book Paper Man Says 46 Mills Must Close if Proposal is Enacted into Law, and Invested Capital Be Idle.

Washington, May 9.—"This simply means that we will have to quit business," said Judge Sullivan, a Philadelphia book paper manufacturer, at the hearing on Canadian reciprocity before the Senate Committee on Finance. "There are 46 mills making this paper with a capital of 105,000,000 and 30,000 employees," he continued. "If this reciprocity bill is passed, it will place upon our product, compared with Canada's production, an advantage of \$7 a ton."

Officers of the National Grange from a dozen states appeared to prevent the farmers' protest against reciprocity. N. J. Bachelder of New Hampshire, master of the National Grange, said that in 25 states there is unanimous opposition among the farmers to the Canadian agreement. The introduction of the free list bill in the house, Bachelder said, was an admission that the farmers were treated unfairly by the reciprocity agreement. He declared the agreement violated every principle of justice.

Robert Eaton, master of the Illinois Grange, observed that it was strange for the committee which often heard the representatives of trusts and combines to hear from the farmers arguments showing why they should be protected from unfairness.

The carnival company, billed to show here this week, failed to show up. We understand the presiding deity at Martin, Tenn., has the outfit tied up because the company loaded some of their stuff on Sunday. Martin must be a real Sunday School berg.

The Steamer Stack Lee, after an absence of nearly eight months, caused by wreck and consequent repairs, will re-enter the trade out of Memphis in about two weeks. She will take the place of the Ford Herold in the Memphis to St. Louis trade, the latter going to bank for a season. The Stack Lee, being a broader boat, is much better adapted to carrying passengers than is the Herold, and as the excursion season will open the 16th of this month, she is much more desirable boat for the St. Louis trade at this time.

Of Knox and Calvin

"What do you think?" the man inquired.
"Oh Calvin and of Knox?
Have you in every way admired
The way they led their flock?"

We looked at him and tried to think
Just what his words might mean.

He looked at us without a blink,
With countenance serene.

"You don't reply," he argued then.

"Well, now, between the two
I think to open-minded men
There is no doubtful view.

The work of Knox was never done
With frenzy and with haste."

Our thoughts as yet had not begun
To get the Calvin placed.

He went right on and proved that Knox

Was greater of the twin,
And with the cunning of a fox.

We said that that was plain.

Yet we subliminally tried

To think of Calvin's post,

For public knowledge far and wide

Had ever been our boast.

"Now, old John Knox," continued he.

"We laughed: "What is your game?

You know as well as we can be

Philander is his name."

And while he rasped and waved his hand

We offered, too, to bet

No Calvin ever in our land

Had graced the Cabinet.

He turned and walked away at once

While we sat down and thought

How any man can act the dunce

Who don't know what he ought

But if he had not called him "John"

The chances are that we

Had never set him right upon

The sage Philander C.

And Still He Lives.

The man with the glittering whiskers tiptoed gently across the office and looks over the desk of the pale, perspiring hirsute with the disengaged mustache and the recalcitrant fountain pen.

"Say," he whispers, "here's one that just occurred to me. It's yours if you want to use it, and nobody need ever know where you got it. What is the difference between a man who loans a million dollars at usurious rates during a time of panic and instability in the business world and who subsequently collects his interest by due process of law—what is the difference between him and a monarch who discovers a plot against his throne and causes the incarceration of a nobleman whom he has reason to believe is the leader of the plot?"

"If there is any difference, what is it?"

"One gets his per cent and the other gets his Sir peat."

And the sunset casts its ribbons of fire athwart the opaquely beautiful bosom of the dreaming lake.

The Courier's Weekly Sermon
By PASTOR RUSSELL
SERIAL SUBJECT

THE KEYS OF DEATH AND HADES

Sheol to Be Destroyed, Then
Will Come the Shout:

"O Hades, Where Is Thy
Victory!"

Pastor Russell of the Brooklyn Tabernacle preached on the Resurrection, approaching the subject from another standpoint—the destruction of sheol, hades, the grave, the state of death. He said—

Death is spoken of throughout the Bible as an enemy. Merely hymn-book theology presents it as a friend, an angel sent of God. Death is introduced to our attention in the Bible as the penalty for sin, with the distinct understanding that had Adam not transgressed the Divine commands he need not have died, nor ever have been cast out of his Eden home. St. Paul emphasizes the fact that death is the penalty of sin and that the resurrection of the dead will come to mankind as the result of the redemptive work of Christ. He says, "Since by man comes death, by man also comes the resurrection of the dead. For as all in Adam die, even so all in Christ shall be made alive; but every man in his own order," band or cohort (1 Corithians xv, 21-23).

Death a Ravenous Monster.

As Genesis introduces death as a penalty for sin, Revelation concludes the great drama by pointing out Christ's victory and the destruction of sin and death, the release of all the members of Adam's family from his sentence and eventually the bringing of all the willing back to fellowship with God and to eternal life. Between these two extremes of Divine Revelation are the assurances of the Prophets and the words of Jesus and His Apostles explaining the processes of redemption and reconciliation. St. Paul summarizes these with the statement, "By one man's disobedience sin entered into the world, and death as the result of sin, and thus death passed upon all men, because all are sinners. . . As by one man's disobedience [the] many were made sinners, so by the obedience of one shall [the] many be made righteous" (Romans v, 12, 19).

In the poetic language of Scripture death is symbolically represented as a great monster which has been awaking up the human family, never satisfied. The Divine proposition is that whoever would meet the requirements of Justice against Adam and his race might purchase of Ransom them and have full right to deliver them from the prison-house, the tomb.

"The Last Enemy"—Death.

St. Paul points us to the great Deliverer, the glorified Messiah, at the time when He shall take the Kingdom under the whole heavens and begin the fulfillment of the prayer He taught us, "Thy Kingdom come; thy will be done on earth as in heaven." He tells us He must reign until He shall have put all enemies under His feet—"The last enemy that shall be destroyed is death" (1 Corinthians xv, 26).

"O Death, Where Is Thy Sting?"

Then will be brought to pass the Divine prophecy, "O, death, where is thy sting?" O, grave, where is thy victory?" (1 Cor. xv, 55.)

We must notice when this will be brought to pass. It is not now true. The sting of sin is in us all, for, as the Apostle explains, sin is the sting of death. And because all have been stung by sin all are dying. It will require the entire Messianic Age to fully extract from humanity the virus, the sting of sin by bringing mankind to perfection. Only as the sting of death is removed will the power of death relax, because it is a part of the Divine law that "The soul that sinneth, it shall die." Death now has its sting. But when that which is perfect shall have come, the sting will be gone, the imperfection and weakness will be gone, the cause for sin will also be gone.

Now, but then, will be brought to pass the saying, "O, Hades, where is thy victory?" Hades, dead, the grave has been having a victory over Adam's race for over sixty centuries. And its victory will not be entirely overthrown until the Redeemer shall have delivered from the power of the grave those members of the human family for all of whom He died. Just for the moment, to bring us back to God.

Thus, as the Apostle says with the capture of the Christian Kingdom with the deliverance of all mankind from the power of sin and death, death will come howling in victory. The Apostle probably quoted from Hosea xiii, 14 where we read, "I will ransom them from the power of the grave (sheol) will redeem them from death. O death I will be thy plagues gradual destruction, thou shalt be destroyed. O grave (sheol), I will be thy complete destruction, repentance shall be hid from mine eyes." The Almighty will never change or turn from this decision. Death and the grave, dead, hades, the Bible hell, are to be destroyed. Every member of Adam's race is to be delivered by Him Who redeemed all, except those who after abundant opportunity will not obey the great Deliverer; these will be destroyed from among the people (Acts iii, 22, 23).

A Hickman institution has found it more satisfactory to themselves to patronize an itinerant, soliciting print or, than to give the work to the home man, although the latter asked to be allowed to figure on it, at least. The work came back with a bad error in it—the same thing that happened under similar circumstances last year. But the traveling printer is a very clever fellow. He is always ready to correct all errors without extra cost, he never sends his work C. O. D., he may charge just double what the home man does, but then he has more expense, and it is a great support of all Hickman institutions; he pays taxes here and furnishing all the free writings and newspaper whitewash, he never wants the pay for his work until all criticism has subsided and perfect satisfaction prevails. Without, he is a good man to tie to—keep everlasting at it, that kind of business will make your home town a great city. The incident has a moral.

Boring New Well.

A. Goldsberry and his crew of negroes started Tuesday morning putting down the new 8-inch well for the Hickman Ice & Coal Co., which is being bored on the south side of the power house.

The well diggers work in two shifts of 12 hours each, or in other words, night and day until the job is completed. The equipment has a capacity of going down about 175 feet every 24 hours, unless they should hit a strata of rock.

As heretofore stated, the new well is necessary on account of the amount of water used in the manufacture of ice. The present well has never failed, or even showed signs of failing, but the enormous amount of water used in the ice machine, if turned out in the sewer, might overflow it. For that reason the water has been turned back into the well, and in consequence, the water in the mains has a reddish, dirty cast at times. When the new well is finished, we will be assured of pure, clear water. The company expects to sink this week to a depth of upwards of 1,000 feet, and under favorable conditions it should be finished in a week.

Sam Shaw and family and Mrs. Calhoun, of Morristown, Tenn., were the guests of Mrs. Mollie Johnson Sunday and Sunday night.

WHEN HER BACK ACHES.

A Woman Finds All her Energy and Ambition Slipping Away.

Hickman women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary trouble, all tell of sick kidneys and warn you of the stealthy approach of dropsy or Bright's disease. Doan's Kidney Pills are for the kidneys only. They attack kidney disease by striking at the cause. Here's proof of it in a Hickman woman's words:

Mrs. R. L. Graves, Shaw Road, of Hickman, Ky., says: "I had an attack of kidney trouble which caused my back to become very lame and weak. Headaches were common, I felt tired and found it difficult some days to finish my housework. Learning about Doan's Kidney Pills, I went to Helm & Wilson's Drug Store and procured a box. They rid me of the lameness in my back, restored my strength and made it possible for me to do my housework without any inconvenience. I can truthfully say they benefitted me more than any thing else I ever used."

For sale by all dealers. Price 60c. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

State Notes.

Frankfort.—In the case of the L. & N. railroad against Helen Morton Hall, on appeal from Hopkins county, judgment of the lower court was reversed. The judgment was for \$2,000 for land condemned. The court says that "remote, imaginary, uncertain and speculative damages should be disregarded, and the jury should take into consideration all the advantages and disadvantages which, it may reasonably be anticipated, will result from the prudent construction and operation of the proposed railroad."

Important rulings as to the laws relating to gambling were laid down by the Court of Appeals in the case of Anton Bentler, on appeal from the Kenton circuit court. The court holds that a man can not be compelled to testify against himself before a grand jury unless he is granted immunity under Section 1973, Kentucky statutes.

Bentler was indicted on his own testimony for aiding in operating a poker game in Covington. When he was before the grand jury he refused at first to testify because he said he would incriminate himself.

The Commonwealth's attorney told Bentler he would be compelled to testify, but that the testimony would not be used against him. The next day Bentler was indicted and convicted, being given from one to three years in the penitentiary and a fine of \$500.

In reverting the lower court's judgment the court here says that bill of rights protects a witness when it says he can not be compelled to give evidence against himself. Anyone indicted by a witness who incriminates himself can not testify against the witness giving the testimony. The dismissal of the prosecution is ordered.

The bond issue of \$2,000 for the Bonelli school graded school in Hickman county is held good in the case of Raz Young against Sanford Roberts. The court says the election was legal.

Transfer of Convicts.

At the meeting of the prison commission the question of transferring the convicts between the Eddyville and Frankfort penitentiaries will be taken up. The transfer will be made to carry out the provisions of the act of the last Legislature creating a reformatory out of the Frankfort penitentiary.

The board expects to begin the transfer shortly, the convicts under 30 years of age all being assigned to the Frankfort prison, which is to be the reformatory. The board will also take up the question of having all contracts for prison labor expire six years from now and then let all contracts at the same time. It is believed that a better price for the convicts' labor can be secured in that way.

EDUCATORS TO MEET.

An interesting programme has been arranged for the meeting of the Kentucky Educational association, to be held at Owensboro on June 27, 28 and 29. The purpose of the association, which is to improve the schools of the state, will be helped, it is believed, by the meeting. School teachers from all over the state will attend, and every effort has been made to insure a large attendance.

Report on Reform School.

McKenzie R. Todd, state Inspector and examiner, announced that he expects to complete, in a few weeks, his report on the reform school at Lexington and will file it with the governor. He said he would not give out anything connected with the report or his findings until the report has been submitted to the governor, when the full report will be made public.

WHIRLED TO DEATH.

Dickinson's Reorganization Plans Provide for Headquarters of New Central Division.

Washington, May 9.—St. Louis is to become the chief military center of the United States, according to plans of the war department.

The plan is part of a broad scheme of reorganization. Five divisions will be created. These will be the Division of the East, headquarters at New York; Central Division, headquarters at St. Louis; Western Division, headquarters at San Francisco; the Division of Hawaii and Panama, and the Division of the Philippines.

The proposed Central Division will embrace the present departments of Missouri, the Lakes, the Colorado and Texas.

The condition of affairs has excited political alarm. While the fusion legislators who fled the state to break a quorum are sojourning in Alabama thirty-four strong, the credit of the state is being endangered and the state institutions, charitable and penal, are almost on the verge of suspension, as no money can be obtained for operation from the state treasury that is bursting with a surplus of nearly \$2,000,000.

The Masonic hall, over Cowgill's Drug Store, in this city, has recently undergone extensive repairs, and is now one of the prettiest lodge rooms in the state. The work was looked after principally by H. T. Beale, and the result of his labors are indeed creditable. The floor plan has been changed to a much better advantage; newly papered throughout, new floor coverings, new and expensive furniture for the stations and a massive carved altar, three lesser lights beautifully mounted and wired for electricity, lavatories, reading room, regalia closets, etc., all contribute to make the place one that Masons will be proud of and in keeping with the dignity of the order.

Hickman Lodge 761 has experienced a phenomenal growth in the past five years; in fact, the membership has more than doubled. The Royal Arch Masons are also preparing to establish a chapter here as soon as the necessary arrangements can be made.

Saturday evening Mr. and Mrs. E. F. Gabby entertained a few friends at an elegant course dinner in celebration of the birthdays of Capt. F. M. Ryan, G. A. Moore and Mrs. Gabby, all of which occur on the same day. The guests were Mr. and Mrs. H. C. Barrett, Mr. and Mrs. G. A. Moore, and Capt. and Mrs. R. M. Ryan.

Facts about the Leather Trust and the Bad Quality of Shoes

What under the sun is the matter with leather nowadays! Bennie's shoes are almost off his feet again.

Mamie's and John's can't last much longer—the way they are wearing out.

And those shoes were new only a few weeks ago!

Well—what can you expect when the shoe manufacturers of this country are in the grip of the Leather Trust?

The Leather Trust is the master with leather.

Shoe leather to-day is no more what it was when you and I were boys than shoddy is good straight woolen.

It has not the substance—the stamina to make a dependable, long-wearing shoe.

It is starved in the tanning and finishing—tanned with hemlock in place of oak, with chemicals, with anything that will cheapen the tanning.

Leather Trust's Greed for Profits

The shoe troubles of the American people are due largely to one cause—the Leather Trust's greed for exorbitant profits.

Nobody will deny that a tannery has a right to a profit.

You as a business man certainly would concede the Leather Trust a generous return on its investment and on its cost of delivering the goods.

But, as a shoe wearer, you know that it is not delivering the goods.

The ordinary shoe manufacturer cannot protect you. He has to accept Leather Trust leather, and do the best he can with it. The only wonder is that he does as well as he does.

Your shoe dealer cannot protect you so long as he sells shoes made of Trust leather.

But you can do everything to protect yourself. You can buy your shoes independent of all Trusts and middlemen.

You, your friends and neighbors, and the other folks of this town can go to the local dealer who carries Endicott-Johnson shoes.

This Firm Independent of Trust

Endicott, Johnson & Co. are the only shoe manufacturers in America who get their leather independent of the Leather Trust.

They own their tanneries. They tan every pound of leather they put into their shoes. They tan every lot of hides with an eye to the shoe that is to be made of it—perfect the leather for the kind of service it is to give.

The Endicott-Johnson plant is the one place in America where you can see shoe leather tanned by good old-fashioned standards of service to the folks who wear the shoes.

Honest Shoes at a Fair Price

Endicott, Johnson & Co. will tell you—what the Leather Trust never will tell you—that it is perfectly feasible to tan an honest leather, make it up into a stylish, serviceable shoe and sell it at a moderate price.

They will prove it to you by saving you 50 cents to \$1.00 on every pair of shoes you buy—and give you leather that you simply cannot get in any other shoe.

"Hide to Foot" Policy—

No Profits to Trusts

Endicott, Johnson & Co. buy their hides in the open markets of the world.

They build their shoes complete on the premises—"from the hide to your foot"—cutting out the profits of the Hide Trust, the Leather Trust and the Leather Jobber.

They sell their shoes direct to 30,000 retail shoe dealers—cutting out the profits of the Shoe Jobber.

Endicott, Johnson & Co. will sell you—through your home dealer—their ENDWELL (Goodyear Welt) shoe at \$8.00, \$8.50 and \$4.00.

They make lines that sell for more money—and still other lines at a lower price.

You can buy Endicott-Johnson shoes for men, women and children—shoes for business and street wear, work shoes, dress shoes, school shoes for boys and girls.

ENDWELL—the Stylish Shoe

ENDWELL shoes are stylish shoes—designed by the most skilful shoe designers in this country.

Better than that, they hold their style because the leather is there. Sturdy, honest leather—all the stretch taken out—not a shoddy spot anywhere.

ENDWELL shoes are made in two hundred styles—Lace and Button—High and Low Cut—all the fashionable lasts—all the shapes of toe.

Finished to a nicely inside as well as out. Good fitting—"glovey"—easy to the foot.

And they wear as good shoes ought to wear. That's the point! Remember it. Look for the name stamped on every shoe.

The progress of a town is not guarded by the wealth of its inhabitants, but by the uniformity with which they pull together when any important undertaking is to be accomplished. A man with a thousand dollars at his command and a love for his town in his heart can do more for the upbuilding of it than the millionaire who locks up his capital and snaps his fingers at home progress.

TUBERCULOSIS HEADS THE LIST

State Registrar Helzer Delivers an Address Before Physicians and Others—Urges Reformation, Especially in the Care of Children.

Frankfort.—Dr. W. L. Helzer, of Bowling Green, state registrar of vital statistics, at Winchester made an address to some of the physicians and a few laymen. He said in part:

The state of Kentucky spends hundreds of thousands of dollars in salaries and necessary expenses to operate a system for caring for violators of the moral laws of the state. Each community, city and county maintains its churches, pays salaries to men who look after the violators of the spiritual law and keep the community spiritually healthy.

Is it not an astonishing condition of affairs that 42 of each hundred deaths of Clark and every county are preventable and postponable, that the average economic loss in citizenship to Clark county each year, from preventable diseases, amounts to \$300,000, and the total amount of money she spends to stop this waste of money and citizens, is less than \$302 per year?

Each county in the state when its people learn of this terrible silent war that destroys its citizens, should and will employ one or more competent health officers who are to do nothing else except to visit infected homes and enforce such regulations that will prevent the spread of these diseases.

If a person this morning shall run amuck and kill one or more citizens of this city, and especially a woman or child, popular and righteous indignation would secure that man's arrest and speedy punishment. Yet this year in the first three months of the operation of our vital statistics law, it is found that tuberculosis has killed twenty of the people of Clark county. And we know that this summer dozens of your children will fall under sentence of the modern Herod, the summae disease of childhood, and as yet not a single Indignation meeting has been held, nor a single tangible effort made to prevent this same thing occurring next year, or the remainder of this year.

Not only a county health officer of learning and experience is necessary for this work, but what is of first and paramount importance, is to educate the people to a realization of these conditions.

WILL DOUBLE TRACK.

Work On L. and N. Kentucky Central Division Will be Started June 1.

Paris.—The double tracking of the Kentucky Central division of the Louisville and Nashville from Cincinnati to Paris, Ky., will be started on June 1. The right of way has been secured for the entire distance. The road is also contemplating the electrification of its Cincinnati terminals from Latonia to Cincinnati. Electric locomotives will be added to the equipment and will be attached to the trains from that point. The transfer coach that runs between Latonia and the union depot will be hauled by a locomotive of this kind.

WORK ON IN EARNEST.

Cincinnati, Lexington, Louisville & Maysville Traction Under Way.

Maysville.—Work has begun in earnest on the Cincinnati, Lexington, Louisville and Maysville traction line.

The present plan is to complete the line from Dry Ridge to Owenton, making a terminal depot at Dry Ridge to connect with the Q. & C. railroad.

Trailing has begun and the company are advertising for a large force of hands.

Man Who Killed Father-In-Law Hangs Himself With Strap and Pair of Shoestrings.

Carlyle, Ill., May 23.—William Hall, Jr. who was charged with murder, committed suicide in the county jail.

With a strap taken from his cell hammock and a pair of shoestrings he lived a noose with which he hanged himself to the side of his cell.

He was found by other prisoners, who informed Sheriff Hagen. Hall was 29 years old.

Nine days ago he murdered Mat Barber, his father-in-law, with an ax.

He claimed Barber ruined his married life. The crime was committed at Barber's home, seven miles south of Carlyle. Hall's parents live in Posey.

Boy, Six, Kills Grandmother.

Taylorville, Ill., May 23.—Mrs. Sarah Dodd, 70 years old, was killed by Charles Dodd, her grandson, 6 years old, at a family reunion. The boy had found a shotgun, which he thought was not loaded, and fired it at her. The contents of a shell entered the woman's breast and she died instantly.

Means Confesses.

The confession of Stanley Means, the young man who called Jesse Workman to his door several weeks ago and shot him to death, is given below. It shows he came to Hickman to catch a train.

The statement is as follows, with the exception of several words unfit for publication, and which he claims caused him to kill Workman:

Stanley Means lived at Dukedom, Tenn.

"Last summer Workman arrested me. It came up over a girl. *** He arrested me and made my brother believe I lied about it. He tried to run me off, and I wouldn't go and my brother wouldn't do anything about it. I said this morning that I shot him with a shotgun, I did shoot him. The gun was loaded with No. 6 shot. Called at the house about 9 p.m., and I shot him. IReloaded a shell and said, 'Hello.' He said 'Come in,' 'No, come out.' He came to the door and I shot him. IReloaded a shell and put slugs and pieces of

brass in it and shot him with that shell. I do not know what day of the month. It was on Tuesday night. I stayed there until 9 a.m. Told father what I had done. Didn't tell him that I had killed a man, but that I was in trouble. He said that if I was in trouble to go away from him, he wasn't looking for trouble. Then I went to Ernest Carney—a told him I was in trouble. I walked to Hickman and got on a train. Came here by way of Illois. Got here day before yesterday. I had \$35. Father gave me \$30 and I had \$5. Nobody went with me when I shot him—I was alone. Am twenty years and three months of age.—STANLEY MEANS.

The young prisoner readily agreed to return to Tennessee for trial. Mr. Collier brought him through Fulton and placed him in the city jail, where he was kept until afternoon when he was taken to Dresden. While incarcerated in the city jail he seemed to be deeply hurt, crying a great deal, and saying that he would not have killed Workman had he not been drunk.

Exercises Tonight.

Tonight the commencement exercises of Hickman College will be held at the Lyric.

A very interesting program has been arranged. Miss Williamson, a noted vocalist, of Louisville, will furnish several numbers.

There are five graduates this year, as follows:

Miss Ola Mouan.
Miss Mosele Brasfield
Miss Blanche Helm.
Miss Elise Lutzen.
Miss Virginia Royster

The exercises will begin about 8 o'clock, and a "full house" will likely be in attendance.

Tomorrow evening an entertainment will be given at the Lyric by the department of music of Hickman College. Plays, drills, tableaux and musical selections give the program variety and interest. Admission 10 and 15c.

At Mayfield Sunday evening, Luther Mason, colored, shot and killed Joe Reynolds, also colored. The weapon used was a .38 calibre pistol of some off brand. Four shots were fired at close proximity and three took effect. The first bullet hit Reynolds in the left groin when he turned quickly and began to run. Mason kept pulling the trigger and two balls found lodging on the right and left leg of the fleeing negro. The wounded negro kept running and when about 150 yards from the scene of the affray fell to the ground and expired in a few seconds—Mayfield Messenger.

Commencement tonight.

W. P. Albritton, one of South Fulton's most prominent citizens, was badly injured Tuesday afternoon about 6 o'clock, by being struck by an automobile in South Fulton, the car belonging to S. O. Ahernathy, who was acting as chauffeur. Albritton had two ribs broken and was otherwise injured.

Shooting at Fulton.

Sam Coleman, of Dyersburg, Tenn., shot Ernest Goin, of Fulton, in the calf of the left leg with a .38-calibre pistol Friday afternoon, because his wife told him that Goin flirted with her while she was sitting in the train. Goin is a carpenter and was putting down plank in the platform when the alleged charge took place. Goin denies the charge. Goin was released on \$300 bond and held to the grand jury.

Rush Creek Items.

Miss Pearl Davie attended church at Rush Creek Sunday.

Miss Georgia Weaver visited Miss Stella Davis Sunday.

Children's service at Cayce Sunday night was very nice, indeed.

Mr. and Mrs. Joe Roper, of Cayce, attended church here Sunday.

Miss Fannie May Tress is visiting her grand father near Fulton, this week.

Miss Inez Bynum, of near Fulton, was the pleasant guest of Miss Lizzie Davis Sunday.

Bro Wood had "True Religion" for his text Sunday, and the sermon was very good indeed.

Mrs. Will Moss, who has been quite ill, was able to attend church with her family Sunday.

Jim McGehee will be at home Sunday from Paducah where he has been at Draughn's College.

Bernice White and wife and baby, of near Cayce, spent Sunday with Walter Crostic and wife.

Five reels of moving pictures, showing the 18-round Britt-Nelson prize fight, will be shown at the Lyric on Saturday night. These pictures will give the battle in detail from start to finish. Admission 25c.

Will Have Chapter.

Royal Arch Masons of Hickman are now making preparations in earnest to establish a chapter here, or rather re-establish the one which was annihilated by the yellow fever scourge of 1878. Of the old chapter only three members survive. They are Gen. H. A. Tyler, of Hickman, S. N. White, of Brooksville, Fla., and Mayor W. H. Gardner, of Union City. The chapter will fortunately receive its old name and number—Hickman Chapter, No. 49.

Debts have been secured—14 from Moscow, 1 from Paducah, 3 from Fulton and 1 from Newbern, Tenn.—giving the organization a working membership of 19. Meetings will be held at the Masonic Hall.

Carter on Trial.

Lee Carter, of Fulton, who shot and killed a young man named Frank Baum, of Seattle, Wash., in Fulton, is on trial at Clinton this week. The case went to the jury yesterday afternoon at 4 o'clock. Up to the hour of going to press, a verdict had not been reached. It is the general consensus of opinion that he will be acquitted or a hung jury.

Hickman Gun Shoot.

S. L. Dodds has just returned from the Southern Handicap at Charlotte, N. C., and also a big shoot at Benton, Mo., and he reports that everywhere he has been, all the shooters expect to be at Hickman. Many of them are going to bring their wives.

There is no question but what the Hickman Gun Shoot is one of the greatest boosters and advertisers our town has. It brings high class, uneducated people from all over the United States, and it is to be hoped that they will continue coming.

Recently an article appeared in all the leading sporting papers of England, which spoke in the very highest terms of Hickman and advised every one that could possibly do so to come to the Hickman shoot this year.

The Daughters of the Confederacy and the ladies of the Presbyterian Church furnished diners and suppers last year which were patronized very liberally by the shooters, the home people and the people of the surrounding towns and we understand they are both making preparations this year and will see that everyone has plenty of "eatables" and no one need go away hungry.

The hotels are always taxed to

their capacity and were it not for the good people of Hickman rooming these visitors many would have to leave on account of having no place to sleep. This year a great many of our citizens have already expressed willingness and desire to help take care of these people by furnishing them rooms and any one that can spare a bed and are willing to help take care of these visitors while here the club would appreciate their advice.

Who'll Take 'er?

Fine Bottom Farm of 156 Acres
Well Improved, Already Stocked
For Only \$35 an Acre....

Owner has other business opportunities and will sell this place at much less than it is worth. It can be had with buildings, stock, farming implements and poultry already on it.

Two residences on place, in only moderate repair, but two good barns, one 36 and the other 32 feet, with sheds on sides. Nice young bearing orchard, 50 bushels apples, plenty of plums, etc. 100 acres of the place in cultivation; produces 60 bushels corn, a bale of cotton per acre, also alfalfa, oats, wheat, potatoes and all other crops of this section. A fine stock farm, now stocked with registered hogs of three kinds, live stock and about 200 chickens, guineas, etc., which may be bought with place. All under good American wire fence, but outside is a range of 3,000 acres for stock. Three good wells and pumps on farm.

Land is next to river, but is being added to yearly by river deposits. No better soil under the sun. Place will stand any kind of investigation you may care to make.

This is an extremely low price, as low as any unimproved land, but absolutely nothing wrong with the farm or its title. Makes a good crop every year. If you want either a Fulton county farm or a good investment, it will pay you to buy this place.

HOW TO CARE FOR SILVER.

Too Much Scouring Will Wear Out Plates and Means Needless Work.

While all homemakers take genuine pride in the handsome appearance of their table silver, many find the care of it a burden and give themselves an unnecessary amount of labor over it. The weekly cleaning, which is a bugbear to many housewives, is not only needless, but a real harm, since constant scouring will soon wear off silver plate and has an appreciable effect even upon solid silver. To avoid this, it is hoped that the following hints may prove helpful to some housekeepers.

Silver in daily use should be washed as soon as possible after leaving the table, following immediately after the glasses in the process of dishwashing. After a preliminary rinsing to remove loose food particles, any stained pieces for future use and immerse the rest in a pan of clean, hot soapy water. Wash such pieces as need it with a soft cloth and place them all in another pan of hot water to which a tablespoonful of ammonia and a dash of soap have been added. Wipe the pieces dry from this water without drying them. Plenty of dry, soft towels are required. Follow this by a rub with chamois skin or soft dannel, rubbing briskly but not heavily enough to tend the handles.

Take the stained pieces next. Egg stains are removed with wet salt, others with whiting moistened with alcohol or ammonia. After all stains have been removed wash and polish pieces as above. Two coarse, wide-toothed brushes will be found a convenience in washing silver. Soap should never be rubbed directly on the silver, but a strong suds should be made with the soap suds. This program may seem somewhat elaborate at first, but if persisted in it easily becomes a habit, and the result is much more than worth the trouble.

For the grand cleaning choose a clear dry day. Provide yourself with a convenient table covered with oilcloth or paper. Have whiting, sifted three times, in a dish before you, a small bottle of alcohol, one of ammonia, a soft brush dannel and cotton rag, chamois skin and plenty of tissue paper.

Begin with the small pieces and separate the sets. For the most part a rub with a cloth dipped first in alcohol, then in whiting, will be all that is needed to clean, but if the articles are much stained make a paste of the whiting and alcohol and apply thickly, allowing it to dry on. After this cleaning rub all the articles first with old dannel, then with chamois, using the brush to remove the whiting from the unusual work. In case there are obstinate stains which do not yield to this treatment a competent authority advises treating them with oxalic acid, washing it off immediately and then rubbing again with the whiting and alcohol. Oxalic acid is a poison, and all due precautions must be observed in its use. If the spot looks dull after the acid has been used rub hard with a dannel rag moistened with sweet oil and dry whiting.

After everything is shining and clean all that which is not in daily use should be put away in a clean dannel bag, each containing a small bit of camphor gum. It is an added protection also if each piece is previously wrapped in white tissue paper. Paraffin paper is excellent for wrapping, as it helps to exclude gas, which is the greatest household agent, either coal or illuminating gas, in tarnishing silver.

This thorough cleaning should not have to be done often than once or twice a year if the pieces to be put away are properly protected and the dangle care outlined above is bestowed upon all the articles in daily use.

How to Clean Bagged Rugs.

It is very difficult to wash a Bagdad couch cover or rug successfully. The colors are almost sure to run when treated in the ordinary way. Before beginning operations separate the strips. Then wash each one in a separate water. Use white soap and lukewarm water to which a little salt has been added after a suds has been raised by brisk stirring. Do not rub the strips on a washboard, but merely dip them into the water and stir them briskly, then quickly rinse them and hang them over a clothesline in the kitchen away from the sunlight. Be careful when drying that the strips do not overlap. When almost dry press out the wrinkles with a hot iron. If the odd strips have become slightly worn exchange them with those on the outside when sewing the cover together again.

How to Cook Pumpkin.

The best way to cook a pumpkin is to set it in a oven and then pierce it deeply in the oven without any other preliminary treatment than a light washing with a wet vegetable brush. Bake it for an hour or more, according to the size of the pumpkin. When it is done open the steam end and remove the seeds. The rind will peel off as though it were so much paper. As a rule the rind will not overlap. When almost dry press out the wrinkles with a hot iron. If the odd strips have become slightly worn exchange them with those on the outside when sewing the cover together again.

BANKS WAR ON STATE LAW

THEY ORGANIZE FOR BATTLE
OVER GUARANTY SYSTEM.

Gross Mismanagement of Fund, It Is Alleged, Will Be Shown in Test Case.

Guthrie, Okla., May 23.—The bars have been dropped, and it will now be a fight to the finish between the Oklahoma state banking board defending the guaranty system and the national banks of the state.

The fight started several weeks ago, when Governor Lee Cruce made public his statement charging the national banks of Oklahoma with originating the campaigns against the guaranty system.

Immediately national bankers rejected the charge and began to organize for action.

As a result, it is declared the national bankers will form a separate organization, similar to that already formed by the state bankers.

The suits brought by the state board against the thirty-six national banks in this state that recently changed from state banks may result in the collection of all funds claimed by the banking board, but the testimony will lay bare all of the affairs of the guaranty fund and its alleged gross mismanagement.

REBELS KILL CHINESE

Advice From Torreon Tell of Frightful Rioting by Mob of Mexican Rebels.

Monterey, Mexico, May 23.—Conflicting stories are told here by American refugees from Torreon of a massacre of Chinese by a mob in that city following its capture by rebels. When the insurrectos entered the city an uncontrollable mob of Mexicans took possession of the streets.

One report is that 25 Chinese were slaughtered in the railroad eating house at Torreon. It is also said Dr. J. W. Dunn, a Chinese banker, dragged about the plaza at the end of a rope fastened about his neck. His body was a mass of broken and bleeding wounds.

The refugees relate tales of the armed looting of the Chinese bank failed, but not until several of Chinese defenders had been killed.

300th Anniversary of the Authorized or King James Version of Holy Bible

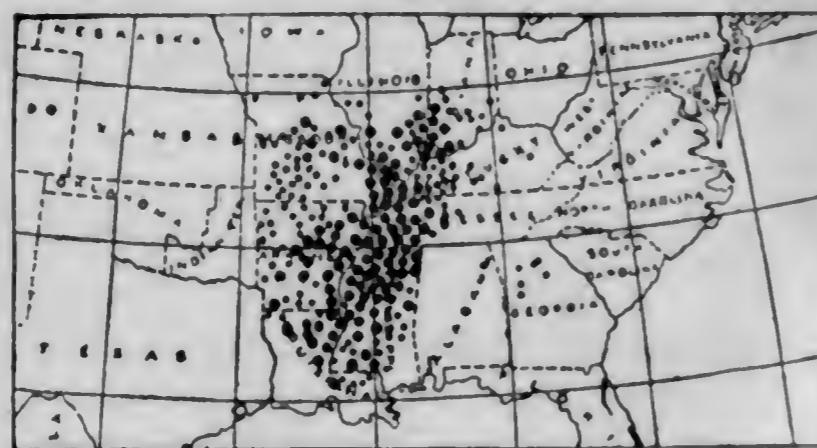

On Sunday night, May 28th, at St. Paul's Church, the Rev. H. J. Geiger will preach a special sermon on the Tercentenary of the Authorized Version of the Bible. This is a most notable and important anniversary to the whole Christian world for it celebrates the first Bible that was put into the hands of the people, so that all might read and learn from the one source, the truths of God's revelation. This great event in the religious world has already been fittingly celebrated in both England and America, and throughout the world wherever the English language is spoken.

On the — of May sermons were preached and addresses delivered in Anglican Churches everywhere, and great public buildings were taxed to the utmost to accommodate the throngs of interested hearers. One of the most important was in Carnegie Hall, New York City. This great hall was filled with eager listeners; the speakers were men famous as scholars and thinkers on both sides of the sea; and the decorations of British and American flags indicated the spirit of union felt between the two great nations in this common celebration of their mutual benefit and blessing in the St. James' Bible. Indeed the Authorized Version as a bond of union has been emphasized, and its significance has deeply stirred great audiences on both sides of the Atlantic.

Letters from King Edward of England and from the President of the United States, and the presence of the British Ambassador, brought to the meeting in an official way the authority of the two governments.

The influence of the Bible upon all literature of the English world can not be over-estimated. It is indeed

LOCATION OF THE LOCUSTS.

What is known as the "13-year" locust pest is now beginning to appear in the middle southwest. The official locust map issued by the department of agriculture at Washington shows the location of this 13-year brood. The dots represent counties, while some attempt has been made to show the extent of the brood in different localities by the size of the dots. In its bulletin the agricultural department states that there may be some errors as to certain parts of Indiana, Illinois and northern Missouri, owing to a confusion of former reports, although this is likely to be more in regard to numbers than distribution, it seems. Otherwise every section of the Mississippi valley showing a black dot may expect a horde of locusts. They are not as destructive, according to government experts, as some imagine, and are chiefly dangerous to young orchards. A 17 year brood is also scheduled to appear this year, but it is confined to Atlantic coast states.

intended in the language as well as in the hearts of the people who cherish it as their highest source of knowledge. But great as has been the value of this Version from a literary and social standpoint, and as a means of education, its religious significance has been far greater. For three centuries it has been the Bible of the English race irrespective of sect or party, of Church or community. It has been the Bible alike of Anglican and nonconformist—High Churchman and evangelical. Men of different ideals and beliefs have been at one in their reverence for its sacred pages. Men of saintly lives, great scholars, and men of the highest intellect, have humbly, diligently and prayerfully studied the writings of the Bible. They found there what no other Book could supply.

It may be remembered that when Charles Dickens' son went as a colonist to Australia his father placed a copy of the Bible in his trunk, and afterward wrote to him: "I put a Bible among your books for the very same reason and with the very same hopes that made me write an easy account of it for you when you were a little child, because it is the very best Book that ever was or ever will be known in the world, and because it teaches you the best lessons by which any human creature who tries to be faithful and truthful to duty can possibly be guided."

And Sir Walter Scott wrote in his life:

Within this awful volume lies
The mystery of mysteries.
Happiest be he of the human race
To whom God has given grace
To read, to fear, to hope, to pray
To point to Heaven and learn the way
And better had he ne'er been born
Who reads to doubt, or reads to scorn.

An ancient and pretty custom to be observed at the Coronation of King George is the presentation of the Bible. A copy of the Book is laid upon the Holy Table, and from thence is taken by the Archbishop of Canterbury and placed in the hands of the newly-crowned King with these solemn words:

"Our Gracious Sovereign! We present you with this Book the most valuable thing that the world affords. Here is wisdom; this is the royal law, these are the lively oracles of God. Blessed is he that readeth, and they that keep the words of this Book; that keep and do the things contained in it. For these are the words of eternal life, able to make you wise and happy in this world, nay, wise unto salvation; and so happy for evermore, through faith which is in Christ Jesus; to whom be glory forever. Amen."

It is indeed a great opportunity we have to celebrate this important event and it is to be earnestly hoped that it will awaken an interest in the study of this greatest of Books. So much is said nowadays about the failing-off of Christian living—the lessening of the interest taken in all Church affairs. But indeed if the Christian religion seems temporarily
